

Academy 2022/23

Call for applications

For over 41 years, **Orchestra da Camera di Mantova** has distinguished itself for the scrupulous and “handmade” practicing, which is at the basis of each of its productions. “Orchestra”, in Mantua, is a synonym for **expanded chamber ensemble**. This peculiar conception of playing music makes Orchestra da Camera di Mantova a reference point in the national and international panorama.

OCM Academy aims at contributing to the development of a new generation of musicians, able to express themselves and to convey to the orchestra the attitude and values characterizing the chamber music. Five musicians under 35 years old will have the opportunity to play in Orchestra da Camera di Mantova for a whole season, close to colleagues with a wide and proved international experience: a chance to go nearer the chamber orchestra specific repertoire.
